## Q. Why Client's first preference will be SARN Solar Solution Pvt Ltd., no other company?

1. We are doing a project in collaboration with West Bengal State University Renewable Energy Department. University professors will visit so many times up to commissioning then the project will certify on the university letterhead as project Certified by a concerned state university.
2. Four highly experienced Professors are advisors, directors, and governing body members of this company to make an awareness program for a sustainable future and also through execution by the project to reduce carbon emissions & global warming with never compromise with quality.
3. All associate software we are applying to provide the best-optimized system which highly needs academic background.
4. Already supplied & installed so many Streets Lights & Solar Drinking Water Systems all over West Bengal

So,  
 Just trust us....  
 SARN Solar can assure you,  
 Gain better than your expectations...

Please feel free to contact us in case of any further clarification/queries.

Thanking You  
 Yours Truly,

SARN SOLAR SOLUTION PVT. LTD.
